

MYFARMBASE PRODUCTS INCORPORATION

Incorporating Fellows Agricultural Produce on Myfarmbase Company's Website is no doubt a good way to ensure sustainability and effectiveness of MFB Agricultural E-Learning program.

However to successfully add a Fellow's Agricultural products on Myfarmbase Company's website, five stages must be completed for accountability purposes.

Above is the graphical representation of the stages required of a fellow to be part of this incorporation.

STAGE ONE

- Registration of business name
- list of Items produced (with Pictures)

The above information will be captioned via Google form.

STAGE TWO

- Result collation.

In this stage, information regarding the farmer / producer will be collected. This will include, name, contact information(business and personal numbers, whatsapp line preferably), business address, List of food items, Pictures of items produced.

STAGE THREE

- Products approval

(An email will be sent to this effect to approved businesses)

STAGE FOUR

- Addition of approved products on the company's website page.

STAGE FIVE

- Follow up on producers/ farmers.

(A WhatsApp group chat will be created to cater for this)

- Marketing (Producers whose products had been added continue market products on their social media platforms).
